

Low Ceiling Booth List – as of 7/21/18

Listed companies are islands or shared islands within the low ceiling area in Halls E and F (26' ceiling) or H and I (24' ceiling). The listed booth is completely under the low ceiling unless indicated otherwise *with italics* (and the amount of the booth under the ceiling in parentheses).

Booths in the low ceiling area may face challenges with rigging signage, installing items that are at the exact booth height limit (18') or other limitations when it comes to their booth design, and are encouraged to [contact WEF Show Management](#) in advance with any rigging or height questions to ensure that their booth will be successful in these areas.

Visit <http://www.weftec.org/exhibitor-service-manual> for complete booth guidelines.

Company Name	Booth No.	Booth Size	Hall / Ceiling Height
<i>ADS Environmental Services (edge of booth)</i>	4317	20' x 30'	F – 26'
APG-Neuros	3407	30' x 40'	E – 26'
